The year 2018 in logistics was quite the journey. There were tariffs, capacity shortages, talent

shortages, natural disasters, recalls, and the slow adaptation of the digital supply chain. Amidst all these roadblocks Seldat continued its progress to be a leader in technology driven supply chain solutions. We expanded our operations, our workforce and facilities. Through a fierce dedication to giving our customers the best possible service for their business needs we were named a top 100 3PL provider. Our progress even allowed us to move into a larger headquarters, allowing of the capability to be an even greater resource to our customers.

As the year draws to its conclusion let's take a look back at the most significant Seldat stories which helped to make 2018 a productive and successful year for both us and our clients.
